1.1

See Think Wonder

What do you see?

What do you think is going on?

What does it make you wonder?

purpose

This routine encourages students to make careful observations and thoughtful interpretations. I helps stimulate curiosity and sets the stage for inquiry.

Introducing & Exploring Ideas

PURPOSE

What kind of thinking does this routine encourage?

This routine emphasises the importance of observation as the basis for thinking and interpretation that follows the close looking of an image, object, video, excerpt of text, painting, photo etc. The stimulus should be evocative and engaging.

APPLICATION

When and where can it be used?

Use this routine:

- ❑ When you want students to think carefully about why something looks the way it does or is the way it is.
- ❑ Use at the beginning of a new unit to motivate student interest.
- ❑ Consider using with an interesting object near the end of a unit to encourage students to further apply their new knowledge and ideas

ASSESSMENT

How can I use this routine as an assessment?

- ❑ See responses → look for improvement in ability to notice details that take them deeper in the image/ object rather than getting stuck on immediate surface features.
- ❑ Think responses → pay attention to the kind of supports students are able to provide for their interpretations in response to the ***What makes you say that?*** prompt. Are they drawing on evidence to create coherent links?
- ❑ Wonder responses → look for questions that are more adventurous and broad rather than limited to those requiring specific factual responses.

Adapted by Alice Vigors 2017

LAUNCH

What are the steps needed for starting and using this routine?

1. ***Set up*** → Present the chosen image in a way that allows students to see as much detail as possible. Allow sufficient silent time for close observation, 2 or 3 minutes, before any talk or discussion.
2. ***See*** → Ask learners to state what they noticed. Emphasise we are not looking for interpretations at this stage, only what they observe. Useful prompt: *an observation is something you could actually put your fingers on within the image/object.*
3. ***Think*** → Ask learners what they think is going on in the image/ object. This general, interpretive question may be modified to suit what is being viewed. The goal here is to build up layers of tentative interpretation rather than merely naming the subject matter. Push for alternatives and additions → *What else is going on here? What do you see that makes you say that?* This encourages learners to provide supporting evidence.
4. ***Wonder*** → Ask learners what they are now wondering about based on what they have seen and have been thinking. Initially students may find it hard to separate "thinking" from "wondering". Using *'I wonder...'* can be useful to begin.
5. ***Share the thinking*** → Students generally share their thinking at each step along the way before moving on. This allows the class to build on the group's thinking at the previous stage and often results in richer discussions. It can be useful to document the thinking at each stage as it happens, although this is not always necessary.

traditions

Special activities that people do over and over, sometimes to celebrate.
"A Tradition is something special we do with our family again and again, like baking cookies every Christmas."

culture

The beliefs, social practices, and characteristics of a racial, religious, or social group. The characteristic features of everyday life shared by people in a particular place or time.

beliefs

A feeling sure that something is true.
"Our beliefs are part of our culture and help show who we are".

This work © 2025 by Elk Island Public Schools is licensed under CC BY-NC-ND 4.0.
To view a copy of this license, visit http://creativecommons.org/licenses/by-nc-nd/4.0/

histories

Studies of the past. A written record of important events and their causes.
"Different families and cultures have their own histories that tell about where they came from and what is important to them."

community

A group of people who live, work, or play together.
"Our school is part of a community because we all help and care for each other."

Zoom In

Look closely at the small portion of image that is revealed.

- ☐ What do you see or notice?
- ☐ What is your hypothesis or interpretation of what this might be, based on what you are seeing?

Reveal more of the image.

- ☐ What new things do you see?
- ☐ How does this change your hypothesis or interpretation?
- ☐ Has the new information answered any of your wonders or changed your previous ideas?
- ☐ What new things are you wondering about?

Repeat the reveal & question until whole image is revealed.

- ☐ What lingering questions remain for your about this image?

purpose

This routine is a variation of See-Think-Wonder and asks learners to observe a gradual portions of an image closely and develop a hypothesis each time.

Introducing & Exploring Ideas

PURPOSE

What kind of thinking does this routine encourage?

This routine asks learners to observe gradual portions of an image closely and develop predictions. The process of making tentative predictions enables learners to see that not only is it okay to change your mind about something, but in fact it is important to be open-minded and flexible enough when new and sometimes conflicting information is available.

APPLICATION

When and where can it be used?

Use this routine:

- ❑ When examining illustrations that support a text or theme
- ❑ At the beginning of a unit to motivate student interest
- ❑ To explore multiple perspectives in images/ objects/ topics

ASSESSMENT

How can I use this routine as an assessment?

Look for how students:

- ❑ Pay attention to detail when formulating their predictions and how they support their assumptions by referring to what they have seen and noticed.
- ❑ Are students synthesising the new information as it is provided to develop new or modified predictions?
- ❑ Do students build on the ideas of others, or do they limit their thinking to only their ideas?
- ❑ Are they able to reflect on how and why their thinking has changed throughout the process?

LAUNCH

What are the steps needed for starting and using this routine?

1. ***Set up*** → Display a section of the image & invite learners to look attentively at it, allowing time for careful observation. Invite them to develop predictions based on what they have seen.
2. ***Reveal*** → Uncover more of the image & again ask learners to identify anything new and consider how this new information affects previous predictions. Depending on stimulus, ask more pointed questions and wonderings.
3. ***Repeat*** → Continue the process of revealing and interpreting until the entire image has been revealed and invite learners to state any lingering questions they have.
4. ***Share the thinking*** → Discuss the process with students. Ask them to reflect their different interpretations and reflect how their thinking has changed with each piece of additional information. Ask:
   - ★ How did seeing more of the image influence their thinking?
   - ★ What parts were particularly rich in information and had a dramatic effect?
   - ★ Which were more ambiguous?
   - ★ What would the effect have been if the reveals had happened in a different order?

My Family Tradition

Dear Families,

We are learning about traditions, cultures, and identities in our classroom and would love your help with a special project! Please take some time to talk with your child about one tradition (holiday, ceremony, activity, celebration) your family celebrates. This can be any tradition that is meaningful to your family, big or small!

Together, you and your child will complete the attached page to help them share their tradition with the class. You are welcome to include:

- Drawings
- Writing (adult or child)
- Photos or stickers
- Small, safe artifacts (like a recipe card, a holiday decoration, or fabric)

Please help your child write or draw about:

- What the tradition is?
- Why it is special or important to your family?
- What values, beliefs, or feelings are connected to this tradition?
- How long has this tradition been a part of your family?

This project helps us learn to:

- Respect and appreciate different cultures and traditions
- Understand our own identity and what makes us unique
- Celebrate the diverse community in our classroom

Please return your completed page by _____, so we can begin sharing and celebrating our special traditions together!

Thank you for helping us learn about the beautiful traditions that make each of us who we are.

Sincerely,

My Family Tradition

Kindergarten – Time and Place

Name: _____

1. What is one tradition your family celebrates?

_____

_____

2. When do you do this tradition? (What time of year or on what day?) How long has this tradition been a part of your family?

_____

_____

3. Who do you celebrate this tradition with? (Friends, family, community members)

_____

_____

4. What activities do you do during this tradition? (share any food, songs, games, clothes, decorations or other activities)

_____

_____

_____

5. Why is this tradition special to your family? (Is it fun? Does it remind you of someone? Is it part of your culture or beliefs?)

_____

_____

_____

6. What does this tradition teach you or help you remember? (Does it show kindness, love, gratitude, faith?)

_____

_____

_____

7. Add a drawing or photo of your tradition on the next page.

4.1 My Traditions Graphic Organizer

Kindergarten – Time and Place

Name _____

Guiding Question: How can sharing cultures and histories build connections between people?

Learning Outcome: Children explore expressions of traditions, cultures, and histories.

Objective: In this activity, students will illustrate one of their family traditions and supporting details.

Instructions:

Creating a graphic organizer:

1. Students will use the information from the family questionnaire to further illustrate and share more about their tradition.
2. In a small group at the teacher table, provide each student with 'My Traditions Graphic Organizer'. Have their individual questionnaire available to reference and help them complete each box.
3. My Tradition – draw and color what their tradition is.
4. My tradition happens - Circle which word best describes how often their tradition happens or assist them in better describing it on the line provided.
5. My tradition makes me feel - Circle which face best describes how they feel about this tradition
6. This tradition is done with – Draw a simple sketch of who this tradition is shared with.
7. More about my tradition - Provide more detail about this tradition. Do they eat anything specific or special? Do they listen to something during this tradition? What might they wear during this tradition?
8. Encourage students to add detail to their illustrations.

4.1 My Traditions Sharing Circle

Kindergarten – Time and Place

Name _____

Guiding Question: How can sharing cultures and histories build connections between people?

Learning Outcome: Children explore expressions of traditions, cultures, and histories.

Objective: In this activity, students will describe traditions, cultures, languages and histories of personal or family significance. Students will share experiences with reference to time.

Instructions:

Sharing the graphic organizer with the class

1. Students will gather in a sharing circle as a whole class.
2. Students will take turns showcasing their graphic organizer to the group.
3. Teacher will encourage students to describe their tradition using prompts such as:
    1. What is your tradition called?
    2. When do you celebrate or do this tradition?
    3. How long has this tradition been a part of your family for?
    4. Who do you do this with?
    5. What do you eat or wear during your tradition?
    6. How does this tradition make you feel?
    7. What is your favorite part of this tradition?
4. Reflect and Celebrate: after everyone has shared, ask some closing questions such as:
    1. What did you notice about other people's traditions?
    2. Did anyone have a tradition that was the same as you?
    3. Why is it special/important to share about our families and cultures?

To complete this project, you will include:

- ❑ My Traditions Graphic Organizer
- ❑ My Traditions Family Questionnaire
